DELETION-EDIT

The screenshot shows a GitHub repository page for `NIIT-Capstone-LENY/calci`. The repository is private. The main navigation bar includes links for Learn Portal, University Mails, Exam Portal, YouTube, Office, Newsletter, GitHub, LibGen, and HackerRank.

The repository has one branch, `deletechanges/calf`, which is 6 commits behind the `main` branch. A commit by `unlikenitin1` deleted several files: `public`, `src`, `.gitignore`, `README.md`, `package-lock.json`, and `package.json`. The commit was made 10 minutes ago.

Below the file list, there is a section titled "Getting Started with Create React App". It states: "This project was bootstrapped with [Create React App](#)".

At the bottom right of the page, there is a watermark that says "Activate Back to Wind" and "Go to Settings to ad".

DELETION-EDIT

The screenshot shows a GitHub pull request page for a repository named 'NIIT-Capstone-LENY/calci/pull/1'. The title of the pull request is 'deleted #1'. The status is 'Merged' by 'Yash-9274' into the 'main' branch. The commit message is 'deleted unnecessary files(default set)'. The pull request has 12 files changed and 1 commit. The conversation shows a comment from 'unikenitin' stating 'No description provided.' and a reply from 'Yash-9274' stating 'deleted unnecessary files(default set)'. The pull request has been merged and closed successfully.

Revert Delete branch

This screenshot shows a GitHub pull request interface. At the top, a purple button indicates the pull request has been merged. Below it, the main commit history is displayed, showing two commits from user 'ladalijain' and one from 'Yash-9274'. The 'Yash-9274' commit includes a message about operators, buttons, and event handling. On the right side, there are sections for Reviewers, Assignees, Labels, Projects, Milestone, and Development, each with a gear icon for configuration. A 'Revert' button is located next to the final commit, and a 'Delete branch' button is at the bottom right. The overall theme is dark, with blue and purple highlights for active links and buttons.

```

VERSIONING

The screenshot shows a code editor interface with a dark theme. On the left is the Explorer sidebar displaying a project structure with folders like 'CALCI', 'calf', 'public', and 'src', and files like 'index.css', 'App.css', 'App.js', and 'App.test.js'. The main area shows two tabs: 'index.js' and 'index.css'. The 'index.css' tab is active, displaying CSS code for a 'body' and 'code' selector. Below the code editor is a terminal window showing a sequence of git commands being run on a Mac OS X system. The terminal output includes messages about switching branches ('v0.2.0' and 'v0.1.0') and HEAD states.

```
index.js index.css

PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL COMMENTS

(base) Yashs-MacBook-Pro-2:calci yash$ git checkout v0.2.0
Note: switching to 'v0.2.0'.

You are in 'detached HEAD' state. You can look around, make experimental
changes and commit them, and you can discard any commits you make in this
state without impacting any branches by switching back to a branch.

If you want to create a new branch to retain commits you create, you may
do so (now or later) by using -c with the switch command. Example:

  git switch -c <new-branch-name>

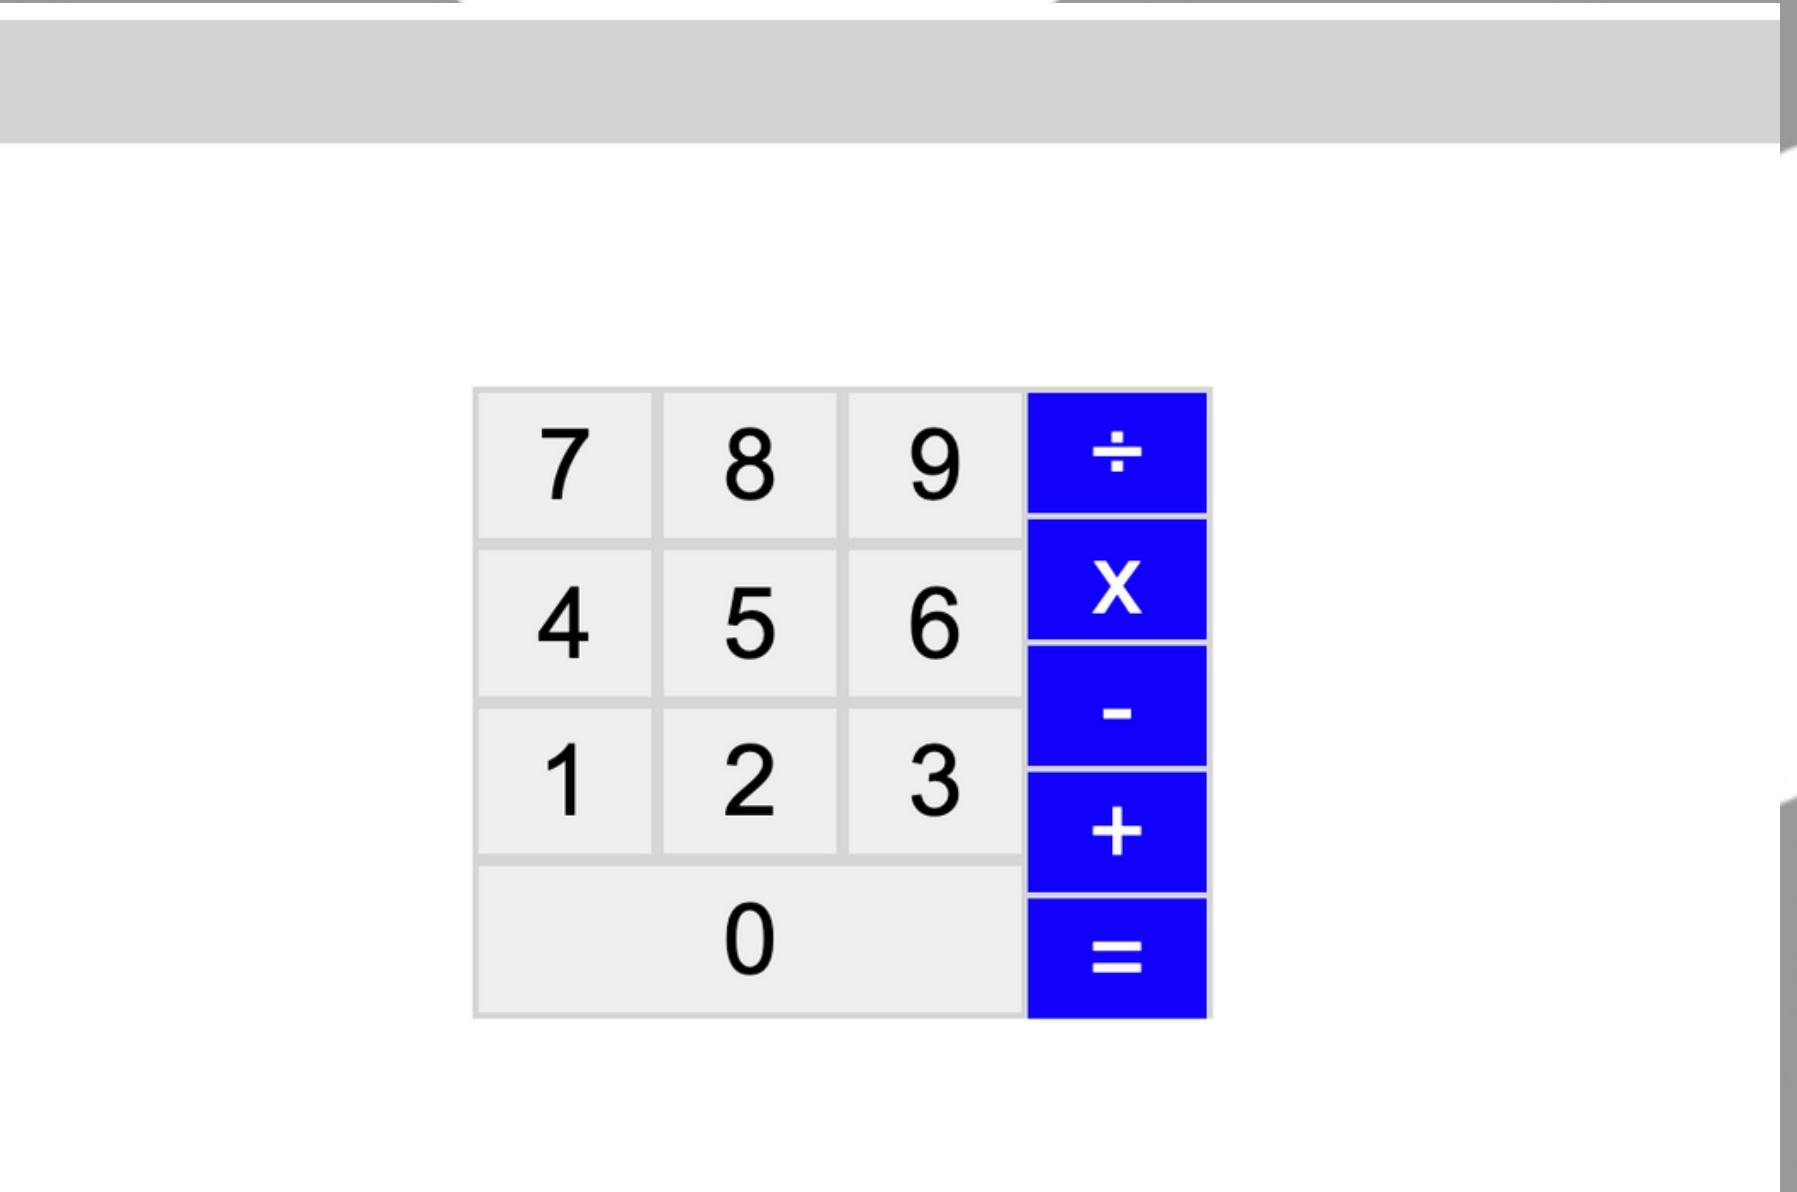

Or undo this operation with:

  git switch -

Turn off this advice by setting config variable advice.detachedHead to false.

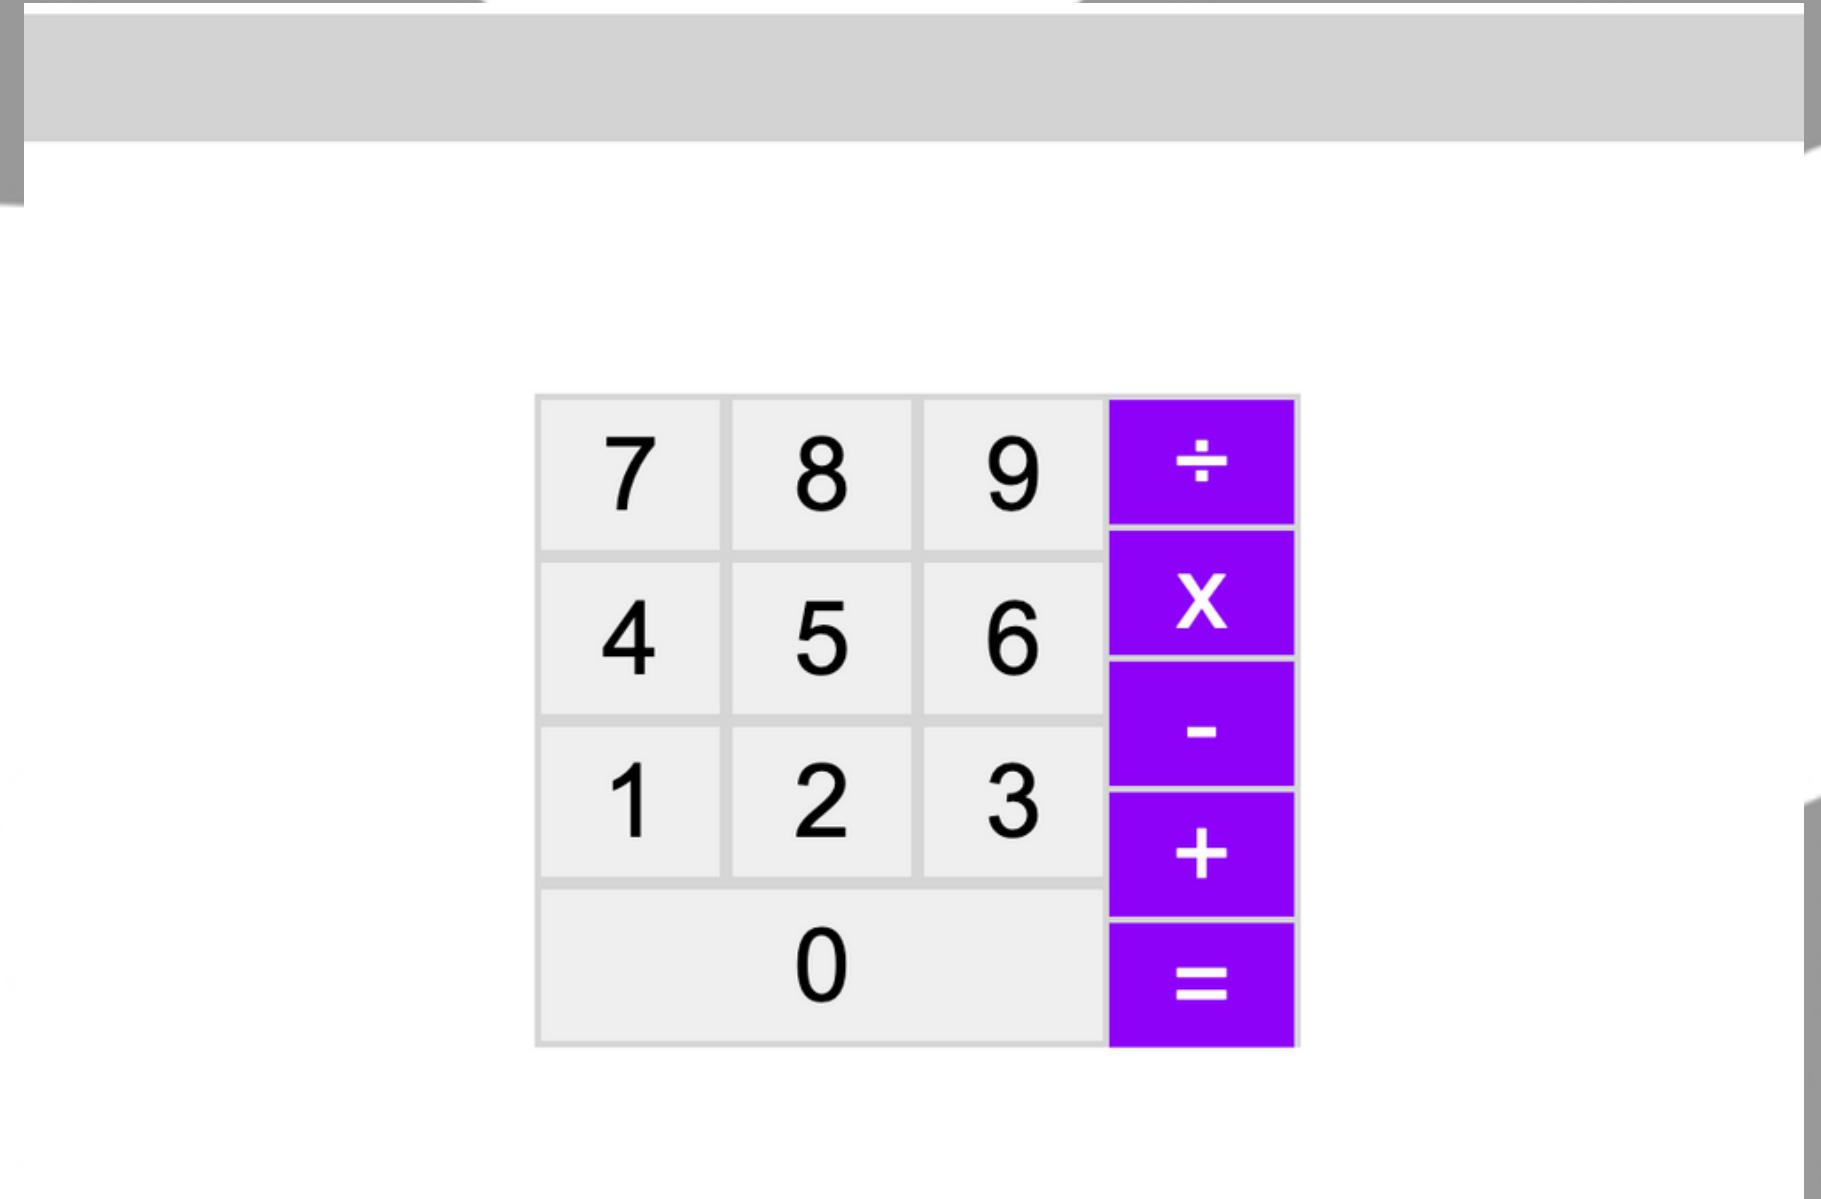

HEAD is now at 074fac5 Updates
(base) Yashs-MacBook-Pro-2:calci yash$ git checkout v0.1.0
Previous HEAD position was 074fac5 Updates

Version-2

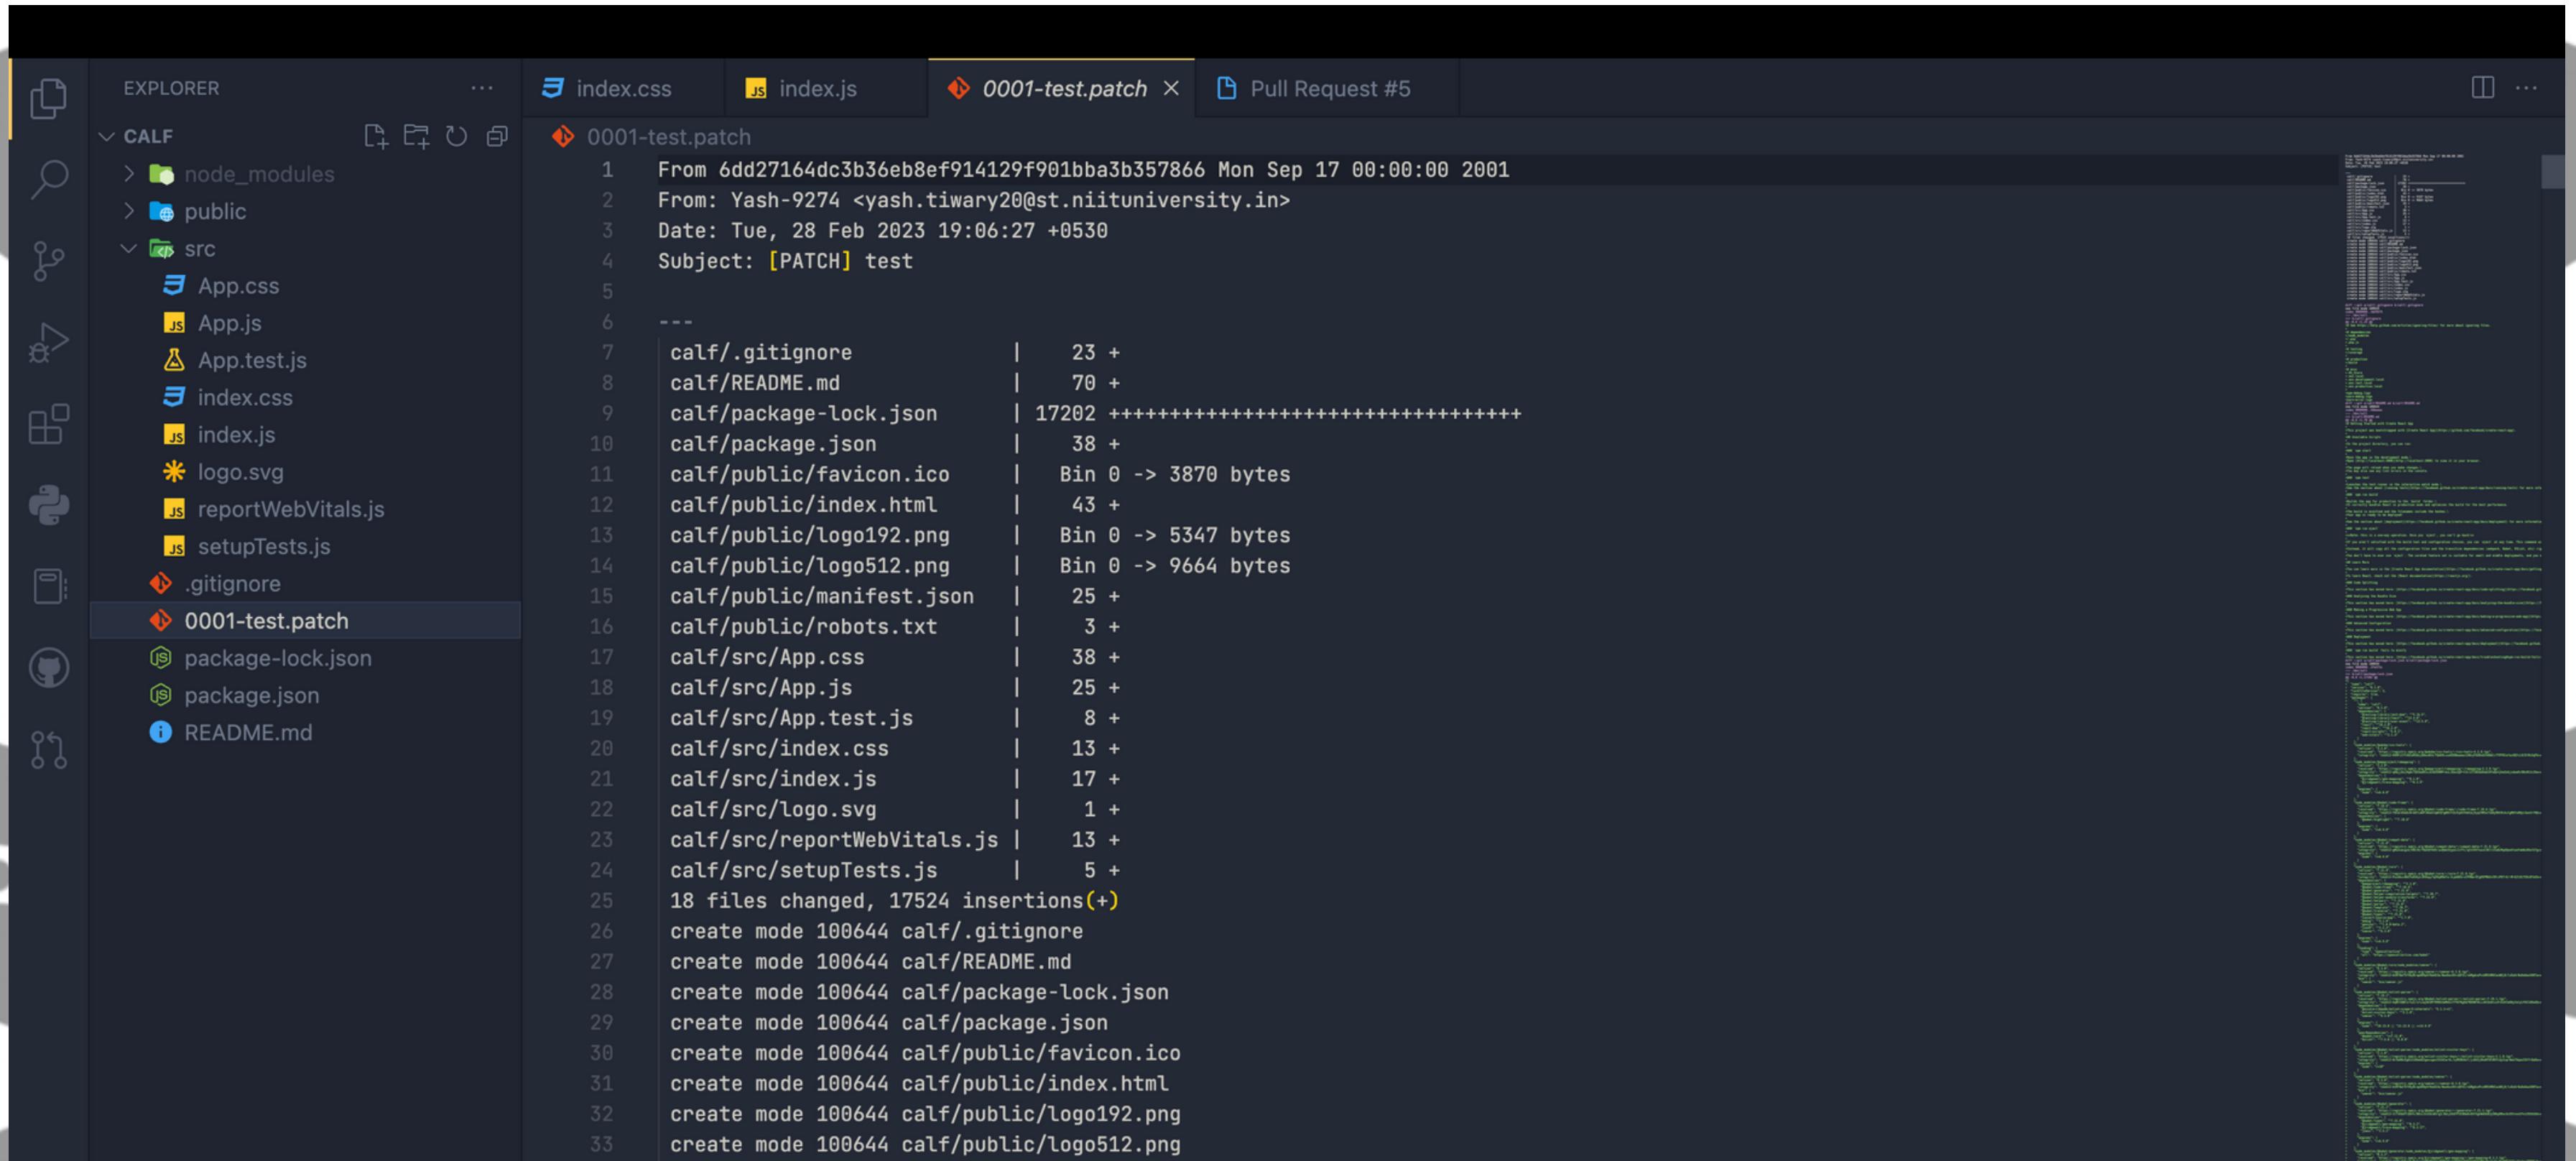

VERSIONING

A screenshot of a dark-themed code editor, likely Visual Studio Code. The left sidebar shows a file tree with a folder named 'CALF' containing files like 'index.css', 'index.js', 'style.css', and 'README.md'. The main editor area displays a portion of the 'style.css' file with CSS code for button styling. Below the editor is a terminal window showing a command-line session where the user checked out a branch named 'v0.3.0'. The bottom status bar indicates the file is v0.3.0 and has 0 changes.

Version-3

PATCHING

The screenshot shows a dark-themed code editor interface, likely Visual Studio Code, with the following details:

- EXPLORER** sidebar on the left containing project files: node_modules, public, src (with App.css, App.js, App.test.js, index.css, index.js, logo.svg, reportWebVitals.js, setupTests.js), .gitignore, 0001-test.patch, package-lock.json, package.json, and README.md.
- Top navigation bar with tabs: index.css, index.js, 0001-test.patch (highlighted in orange), and Pull Request #5.
- Central code editor pane displaying a patch file named 0001-test.patch:

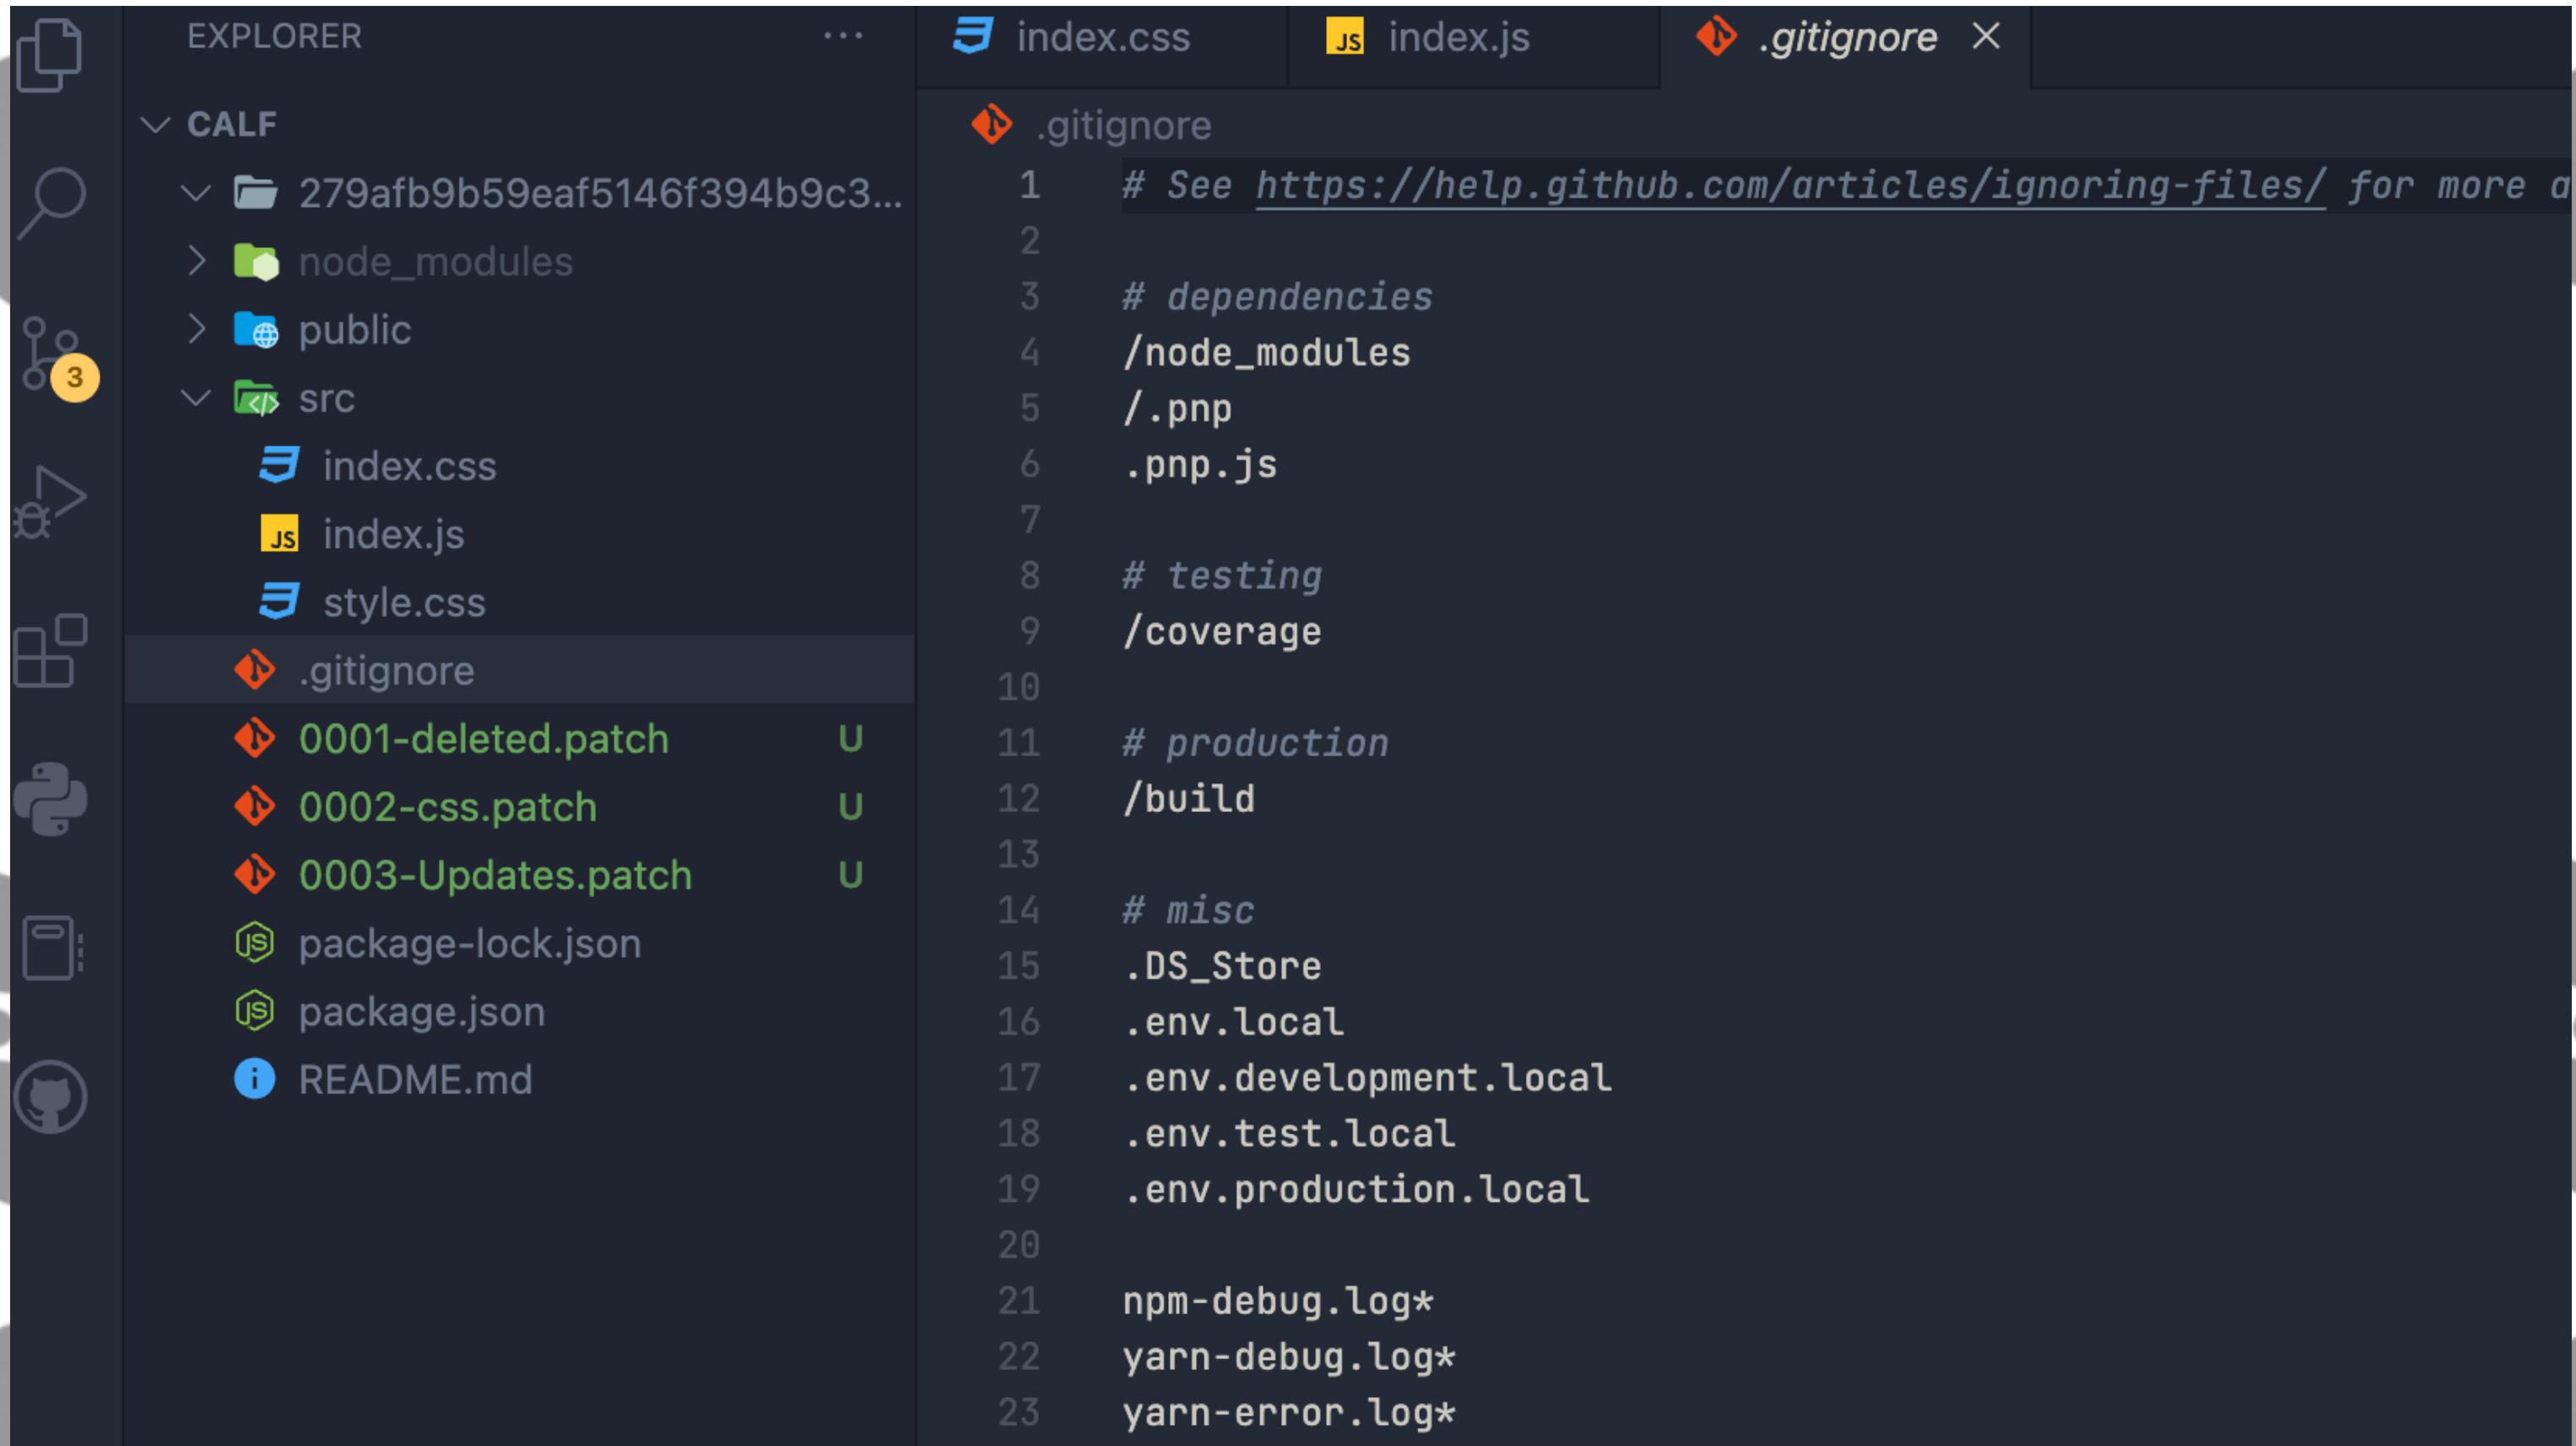

```

PATCHING

The image shows a screenshot of a dark-themed code editor, likely Visual Studio Code, illustrating a workflow for managing patches. On the left, the Explorer sidebar displays a project structure under 'CALF' with files like index.css, index.js, style.css, and several patch files (001-deleted.patch, 002-css.patch, 003-Updates.patch). The status bar indicates there are 3 untracked files. The main area shows an open '.gitignore' file with the following content:

```
# See https://help.github.com/articles/ignoring-files/ for more information.
#
# dependencies
/node_modules
/.pnp
.pnp.js

# testing
/coverage

# production
/build

# misc
.DS_Store
.env.local
.env.development.local
.env.test.local
.env.production.local

npm-debug.log*
yarn-debug.log*
yarn-error.log*
```
